Tonyrefail Community School

This is an incredibly exciting and important time for the educational provision in Tonyrefail and we hope that you will wish to be part of this wonderful opportunity for our children. We are looking to appoint an ambitious and highly motivated Teacher of Music and Music Technology to join our talented team. Above all else, we are seeking a genuine team player who values the success of the entire Faculty as much as their own.

As a team of staff we will lead a truly all-through learning experience, which will be exciting, fully inclusive and highly successful. Our young people will be encouraged to develop as individuals with an ability to articulate their learning, showcase their creativity and talent and feel proud of their national culture. We will not only lead our school to success but also model high aspiration and represent something good for the future so that our young people understand the world and how to change it for the better.

This role will require the successful applicant to step beyond the traditional and innovate a curriculum that excites our children and young adults to develop their music and music technology skills in our state of the art environment. You will be supported to be innovative, creative and to make best use of the facilities available.

Tonyrefail Community School is seeking to appoint self-motivated, self-disciplined colleagues who are driven to do the best they can. In return our school will be an enjoyable place to be for all who learn and work in it. It will be positive and energetic; a place that feels good about itself. Our children will be taught in an encouraging atmosphere surrounded by the optimism and aspiration that will allow them to develop as highly competent, resilient and determined young people. Every child who graduates from Tonyrefail Community School will have the confidence, self-awareness and resilience to successfully take their ambitious next steps.

We are looking for a teacher who values the success of their colleagues as much as their own and whilst setting high standards for behaviour ensures that every pupil is treated with respect and feels included. Our team of staff will be honest, generous and open. Our team will be supportive of each other and innovation will be encouraged with talents and ideas nurtured. We will create a safe learning environment for all who work here. Our Leadership team will strive to create a no fear culture where open and honest self-reflection is expected for improvement and where excellence and going the extra mile is rewarded.

Whilst all prior experience will be valued please remain mindful that this is a new school and a new way of working. This is a role for visionary practitioners who are excited about the future of education in Wales and the possibilities that an all through provision within a state-of-the-art setting can provide. This opportunity to start a school from scratch and introduce only that which has true educational value is a rare and exhilarating one. If you are excited about the possibilities that an all through setting can bring to teaching Music and Music Technology and share our vision for an excellent school then we very much welcome an application to join us.
