**The Role**

Are you passionate about STEM? Do you enjoy working in a supportive role that makes a difference in the learning experience? We have an exciting opportunity for a skilled and dedicated individual like you!

As a supporting staff member for STEM education, you will play a vital role in providing assistance and guidance to both staff and learners. Your responsibilities will include assisting lecturers with lesson preparations, maintaining tools, materials and the workshop, and supporting learners of various levels.

Your contribution will be instrumental in ensuring a smooth learning journey for both educators and learners. By providing excellent assistance and guidance, you will help learners acquire the necessary skills for further study, employment, or apprenticeships. You will also play a crucial part in implementing health and safety measures, ensuring compliance, and adhering to college policies.

**Skills and Experience**

To excel in this role, the ideal candidate will possess a Construction or Engineering qualification or have a minimum of 2 years of industrial experience. Your interpersonal and communication skills will be exceptional, allowing you to effectively motivate and inspire others. Your organizational skills and IT knowledge will further enhance your performance in supporting the team.
